

JEUX

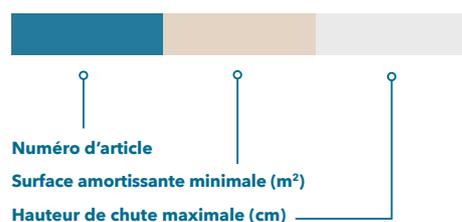

BOIS INFINI

Les jeux Bois Infini de Obra Design permettent de réaliser des projets d'envergure et thématiques, en bois calibré et autoclavé. Notre sélection met en évidence les grandes structures et les installations monumentales spécifiques à la gamme. De plus, une exécution sur mesure rend possible une adaptation aux contraintes du site.

Plus d'informations sous www.espace-urbain.ch

-  **Concepts couleurs en option**
-  **Réalisations sur mesure possibles**
-  **Variante mélèze (articles spécifiques)**
-  **Articles spécifiques pour personnes à mobilité réduite**
-  **10 ans de garantie sur la structure en bois**
-  **Conforme à la norme EN 1176**

Légende :

Les structures monumentales Bois Infini sont entièrement fermées dès que la hauteur de chute excède 300 cm. L'enfant évolue avec le vide à ses pieds, en toute sécurité.

Associé à des sols souples en EPDM, le bois et le jeu, son mis en valeur. L'ensemble de la place prend tout son sens et l'imaginaire de l'enfant peut pleinement s'exprimer.

Monumental! Des hauteurs inédites permettent la réalisation de toboggans d'exceptions. L'escalade de la tour favorise la dépense d'énergie et favorise l'effort physique de l'enfant.

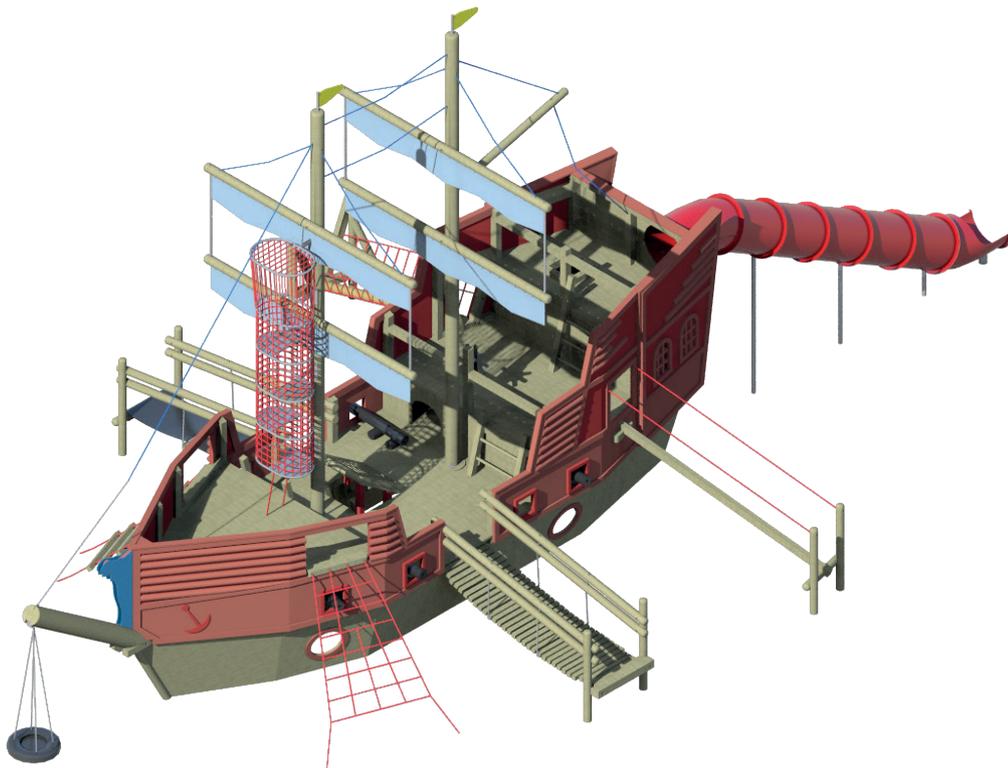

Le savoir-faire et la maîtrise des assemblages en bois permettent la réalisation de tours inclinées ou de constructions inédites. Meticuleusement développées, ces constructions offrent un caractère naturel et une esthétique imprévisible.

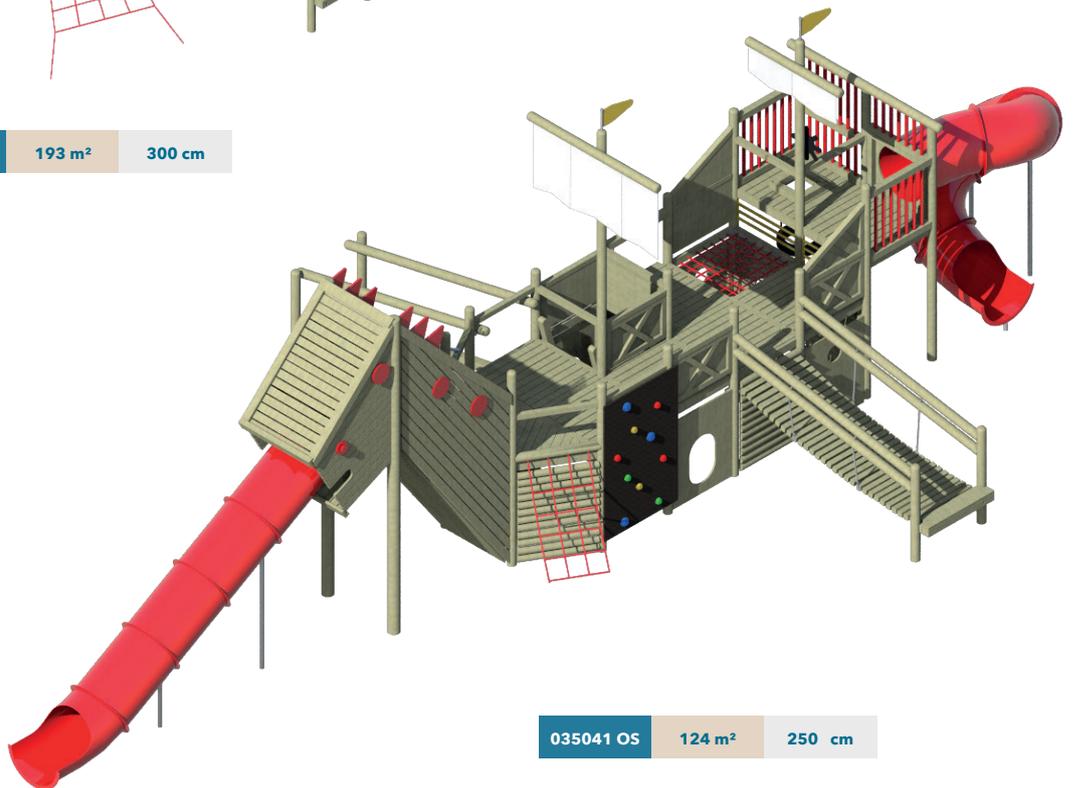

Bois Infini dispose d'un assortiment complet de tables pour le sable et l'eau, de pompes à eau, de vis d'Archimède, de barrages et canaux, permettant l'aménagement d'espaces de jeux d'eau et de sable.
